INTERNAL COMPLIANCE MEMORANDUM (AMENDED)

Section 2.1: Cash Transaction Reporting Thresholds

[Original Policy - Stated in Handbook Vol. 1] All cash transactions exceeding **$10,000** within a single business day require the immediate filing of a Currency Transaction Report (CTR) within 15 calendar days.

[Emergency Amendment - Issued Q4 2025] Due to heightened regulatory scrutiny, regional branches in high-risk zones must file CTRs for any cash transaction exceeding **$5,000** within 7 business days. However, standard operations nationwide may continue to apply the legacy $10,000 threshold unless notified otherwise by the regional director.

Section 4.3: Liquidity Coverage Ratio (LCR) Buffer

Institutions must hold a reserve of High-Quality Liquid Assets (HQLA) equal to **100%** of projected net cash outflows. *[Footnote Note 4b]:* For tier-2 subsidiaries, a transitional buffer of **80%** is temporarily permitted through the end of fiscal year 2026, provided that board-level exception approval is granted.
